

# KHRUL SERGEI

## SENIOR BACKEND DEVELOPER & RESEARCHER

Address: Rio Negro, Argentina; Phone: +54 351 5158862

Email: siberianodis@gmail.com; Portfolio: <https://khrulsergey.github.io>

## ABOUT

Hi! I am a developer with over 18 years of experience in data processing, seeking a challenging position to apply expertise in architecting and implementing cutting-edge solutions for engineering challenges. My strong business acumen enables optimized project workflows and the delivery of exceptional products.

## SKILLS & OTHER

- **Programming languages:** Java, GoLang, C#, React/Angular JavaScript, Solidity;
- **Message Brokers:** Kafka, RedPanda, RabbitMQ, AWS SQS
- **DBMS:** PostgreSQL, ClickHouse, MongoDB, MS SQL, MySQL.
- **CI/CD:** AWS Ecosystem + Terraform, Docker + Kubernetes, CloudFlare, Jenkins.
- **Frameworks:** Spring, Protobuf, Reactor, Swagger, Junit, Unigine, WPF, Selenium.

## PROFESSIONAL EXPERIENCE

### Lead Crypto Developer, Firmshift B.V (EU)

2022 - 2025

Main projects: 1) Meme token launchpad for TG mini-app, including an ERC-4337 AO wallet. 2) Omnichain protocol on Cosmos SDK for swaps and bridging in EVM networks. 3) Statistical platform for a multichain DEX.

- Architected and built 7 complex scalable systems within the cryptocurrency, Web3, and related domains, with focus on innovative solutions.
- Enhanced protocol to support gas fee payments in 3 additional destination chains during cross-chain swaps.
- Developed mechanism for acquisition of financial and analytical data from over 20 sources.

### Lead Full Stack Developer, Bergmann InfoTech (EU)

2020 - 2022

Main projects: 1) Cyber-sports arena with secure cryptocurrency accounting and real-time telemetry data processing for tournaments dashboards. 2) NFT-marketplace project with layered image generator and landing page with token minting.

- Built over 10 digital distributed platforms ranging from video analytics to finance.
- Prepared interactive stand at the 'Expo 2020' international conference, that recorded 50,000 user interactions.
- Achieved a 60% increase in data search speed from multiple Data sources.

### Technical manager, Group of companies "Nsign" (RU)

2017-2020

Main projects: 1) Online video conferencing systems. 2) Highly loaded system for factoring service of large FMCG companies.

- Successfully guided the development of diverse platforms, frequently contributing to significant project wins, contract expansions, and efficiency workers improvements.
- Recruited over 20 developers by upscaling the hiring process and effectively oversaw a team of 25 employees.
- Secured contracts exceeding \$10 million in profit for the company.

### Software Engineer, Team Lead, HUGHES Satellite Monitoring Center (US, RU)

2010 - 2017

Main projects: 1) Real-time public transport monitoring. 2) R&D for ARM-based HW and SW for autonomous vehicles.

- Boosted accuracy up to 50% by adapting inertial-based location algorithm with optimized performance on ARM.
- Improved estimation of fire radius by 35%, using modern technologies and algorithmic solutions.
- Led a team of 3 interns to project success, resulting in their full-time hires.

### Software Engineer Intern, Content Manager, Private Companies (RU)

2003 - 2004, 2008 - 2010

Main projects: 1) Turnstile-based access control systems. 2) Video streaming and web storage platform.

- A 30% increase in monthly revenue was achieved through the integration of new web portal features.

## EDUCATION

- **Tomsk Polytechnic University** (RU), Post-Graduate in Computer Engineering

2014

Degree topic: Satellite monitoring system for autonomous transport

- **Tomsk State University** (RU), Master's degree in Applied Mathematics.

2010

## ACHIEVEMENTS & CERTIFICATIONS

- Won personal state R&D grant for 2 years
- 17 publications in Europe and Russian journals
- Blockchain Fundamentals by ChainLink
- Advanced Solidity by cryptozombies.io
- Artificial Intelligence for Robotics by Udacity
- Solidity Smart Contract Guide by BitDegree
- Learn Solidity with Space Doggo by BitDegree
- Self-Driving Car Engineer Nanodegree by Udacity
